ARPIT MALIK

7056470711 | arpit.malik.ug23@nsut.ac.in | https://www.linkedin.com/in/arpit-malik-bb6939303/

EDUCATION

B.Tech. (Mechanical Engineering)	2023-2027	Netaji Subhas University of Technology	6 CGPA
CBSE (Class XII)	2022	The Century School, Karnal, Haryana	72.4%
CBSE (Class X)	2020	D.A.V Centenary Public School, Panipat	86.6%

INTERNSHIPS

Design Intern|E2EM Technologies Private Limited **(October 2025 - January 2026)**

- Designed and integrated a cost-optimized **Electric Moped** for last-mile delivery from concept to production approval.
- Led chassis, suspension, battery packaging, and ergonomics **design under ₹40k and timeline constraints.**
- **Reduced manufacturing complexity** using sheet-metal-centric, serviceable designs.
- Delivered a validated prototype resulting in **15 vehicles approved** for fabrication.

Design and Development Intern | ARC Global **(June 2025 - July 2025)**

- **Designed and Developed 250 CC, 4X2, 2-Seater Dune Buggy**, focusing on chassis layout, suspension kinematics and overall vehicle integration using SolidWorks.
- Researched and optimized overall chassis and Double Wishbone suspension of the vehicle.

ACHIEVEMENTS & SKILLS

- Secured **AIR 2 Overall** in **ATVC India Season 9**, competing against top engineering teams across India.
- Secured **AIR 1 in Suspension & Traction** and **AIR 2 in Maneuverability in ATVC INDIA,2025.**
- Secured **3rd position** in **CAD Battle** organised under invictus'25 held at **DELHI TECHNICAL UNIVERSITY.**

TECHNICAL SKILLS

- **SOLIDWORKS:** Part Design, Assemblies, Weldments.
- **ANSYS:** FEA, Mesh Convergence, Stress & Failure Analysis, Load Path Optimization.
- **Lotus Shark:** Suspension Geometry, Kinematics Optimisation.
- **Catia:** Ergonomics Optimisation.
- **Core Engineering Fundamentals:** Strength of Materials, Machine Design.

POSITION OF RESPONSIBILITY

Chief Design Engineer (Team Daedalus Racing, BAJA SAEINDIA) **(November 2025 - Present)**

- Engineered **full vehicle architecture** including roll cage, suspension geometry, and system-level packaging.
- Directed technical design reviews and fabrication to ensure **100% Rulebook Compliance** and zero-clash assembly.
- Drove testing, iteration and validation based on real-world feedback **achieving AIR 14 Baja,2026**.
- Investigated and resolved real-world chassis failures by correcting ***load path*** design, **increasing FOS from <1 to >1.6** without weight penalty.

Suspension Lead (Team Daedalus Racing, BAJA SAEINDIA) **(October 2024 - November 2025)**

- Designed and optimized **suspension & steering system** for Baja ATV, achieving **<1° camber change over 10 in travel**.
- Improved handling via **caster tuning (6°→8°)** and **steering ratio reduction (4:1→3:1)** using driver feedback.
- Enhanced **vehicle responsiveness, stability and off-road capability** through geometry and packaging optimization.

Research & Development Exe-comm (ASME, NSUT) **(September 2024 - Present)**

- Curated and led CAD/FEA workshops, technical seminars, and design contests.
- Supervised a student team in conceptualizing and validating a **EHPVC vehicle**.

EXTRA-CURRICULAR ACTIVITES

- **NPTEL Certification – Developing Soft Skills and Personality by IIT Kanpur** **(August 2024 – October 2024)**
- **Volunteer – National Service Scheme (NSS)** **(Jan 2024 – Dec 2024)**

➢ Contributed 100+ hours of community service through awareness drives and social outreach programs.

- **Built and managed an Instagram content channel with 17K+ followers, creating engaging digital content.**
- **Skilled in video editing and content production, focusing on audience engagement and visual storytelling.**
